

Welcome to the conference Successful and Healthy Ageing!

The Research Schools Successful ageing and Newbreed within Örebro University's Strategic Initiative Successful ageing are in their final stages. Many of the doctoral students have completed their theses or are about to do so. We want to mark this occasion by holding a one-day conference on the subject of successful and healthy ageing with participants from the Research Schools. Some of the doctoral students will present their research and discuss issues related to research on ageing.

Date: Monday September 26, 2022

Venue: Örebro University, Bio

Registration link: <https://www.oru.se/conferencesuccessfulageing>

The conference will be held in English, free of charge. Lunch and coffee are included.
