SUMMA DOC | SUMMer Academy of Entrepreneurship for DOCtoral Students

Blended intensive programme (BIP)

Are you ready to take on an entrepreneurial challenge?
And discover how to turn research into real-world impact?

Join the Entrepreneurship Summer Academy and find solutions to address regional needs !

SUMMA DOC: The NEOLAiA Summer Academy of Entrepreneurship combines online preparation and a one-week international mobility experience to guide doctoral candidates through a challenge-based innovation process. Working in multicultural teams, participants address real challenges in **heritage, tourism and territorial innovation** proposed by regional stakeholders. Through mentoring, teamwork and entrepreneurial tools, they co-create sustainable solutions while developing transferable, innovation and entrepreneurship skills that strengthen the connection between research and regional development.

Why attend?

Go International – Collaborate with doctoral candidates from NEOLAiA universities and expand your European research network.
Tackle Real Challenges – Work on concrete issues in heritage, tourism and territorial innovation proposed by regional stakeholders.
Connect Research & Innovation – Transform your research expertise into practical, entrepreneurial solutions with societal impact.
Learn from Experts – Engage with mentors, researchers, innovation professionals and local actors throughout the programme.
Develop Entrepreneurial Skills – Strengthen your creativity, problem-solving, project management and innovation competences.
Experience Tours & Its Territory – Discover the cultural heritage, tourism initiatives and innovation ecosystem of the Loire Valley.
Design Sustainable Solutions – Contribute to low-carbon and sustainable approaches that support local and regional development.
Boost Your Career Prospects – Develop transferable skills valued in both academic and non-academic career paths.

Co-funded by the European Union
