

NORDISK FÖRETAGSEKONOMISK FÖRENING • NORDIC ACADEMY OF MANAGEMENT

## The 26th Nordic Academy of Management Conference Örebro University School of Business, Sweden

### Örebro School of Business invites you to the NFF Ph.D. Workshop 22.8-23.8.2022!

#### Objective

Opportunities for doctoral researchers to present their work in progress outside of the traditional conference settings, especially when it comes to gaining external critical feedback on their work from other students, as well as senior peers remain scarce. This holds even more true since the COVID-19 pandemic where mobility and the international research experience have been substantially restricted. In response to this issue the Örebro School of Business will hold a Ph.D. the workshop to provide a small number of Ph.D. students the opportunity to present their research, as well as, to get feedback from fellow Ph.D. students and experienced researchers in the field.

The workshop is open to doctoral students within all fields of business administration, and all topics, pertinent perspectives and methodological approaches will be considered. Since the main conference theme is focused on *"Bringing research together"*, we encourage and aim at creating a workshop platform that mirrors this belief. We thereby look forward to broadening the view and understanding of where Nordic business administration will be in the future.

The workshop will be held in a cooperative, open, and friendly atmosphere. In the spirit of this philosophy, participants are required to attend the entire workshop. All participants are expected to present, discuss, and reflect upon their work to and with fellow students and faculty, and act as an opponent. Sessions will be organized in smaller groups based on the submitted material with a senior scholar in each group.

In addition to be a source of scientific inspiration, the workshop is also a social event. Priority will be given to doctoral students from NFF member institutions and to those who are likely to benefit the most from the workshop based on their application.
