Wolfgang Kandler

Associate Professor

Institute of Bioanalytics and Agro-Metabolomics

Department for Agrobiotechnology (IFA-Tulln)

University of Natural Resources and Life Sciences, Vienna (BOKU)

“A Brief Introduction to Analytical Quality Assurance including Interlaboratory Comparison Studies”

Wolfgang Kandler works as analytical chemist at the University of Natural Resources and Life Sciences within the Department of Agrobiotechnology located in Tulln (Lower Austria). He studied Chemical Engineering at the Vienna University of Technology finishing with PhD. His research focus lies on quality assurance in environmental analytical chemistry, interlaboratory comparisons alongside inorganic trace and ultra-trace analysis, organic micropollutants and environmental tracers.

Besides having been head of the Working Group on Water Analysis and QA-Systems: coordinator of international interlaboratory comparisons on analysis of water and responsible of running a PT-scheme for many years, he performs research in cooperation with several partners from universities in Austria, Poland and Sweden. Furthermore, he is involved in teaching in the bachelor program Food Science and Biotechnology.

Welcome!

Host: Michi Zeiner
