

Mac

*Quick reference guide for connecting to Örebro University's
wireless network (Wi-Fi)*

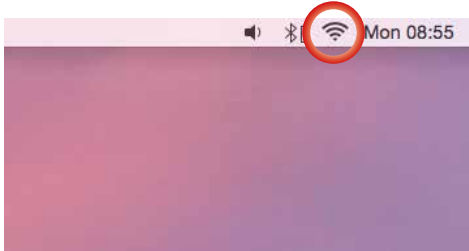

1. Create a password

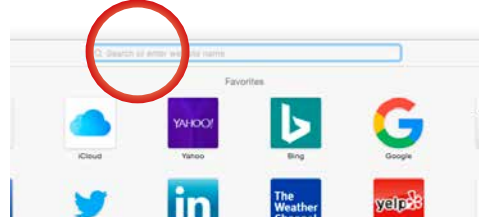

To use Örebro University's Wi-Fi network on your mobile, tablet or computer, you must first create a password. To do this, visit our web-site <http://www.oru.se> and at the bottom, select Wireless networks.

It's not the same password to the wireless network as it is to the ORU account!

2. Click the Wi-Fi menu icon.

5. Type oru.se/wifi in the address bar.

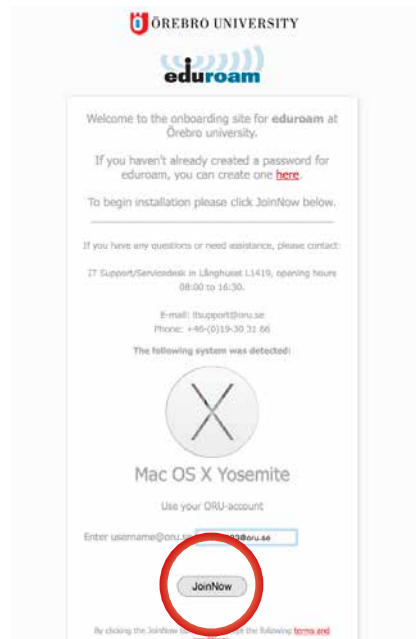

3. Select oru.se/wifi.

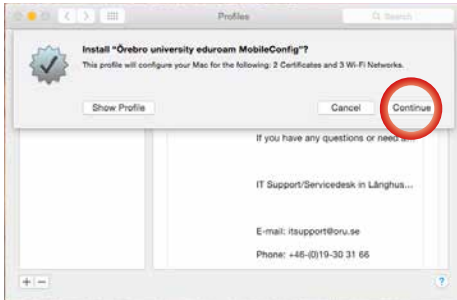

6. Type your ORU account user name followed by @oru.se.

Click JoinNow.

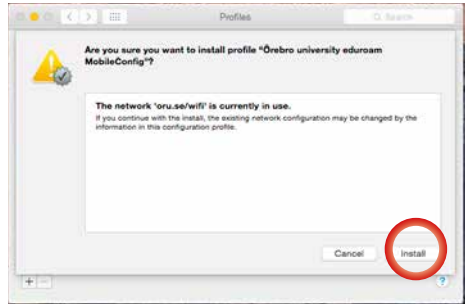

4. Open Safari.

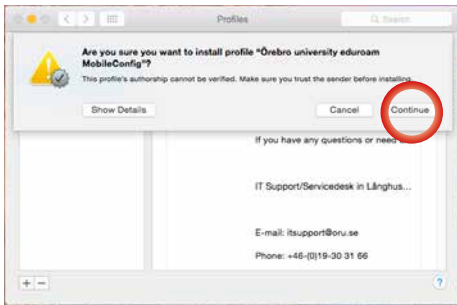

7. Click Continue to install profile “Örebro university eduoam MobileConfig”.

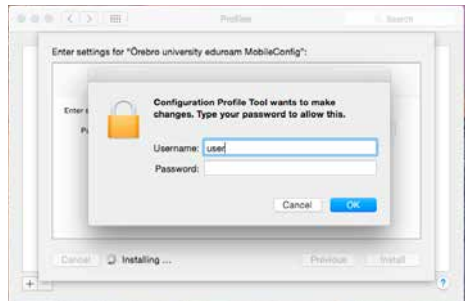

10. Click Install to confirm installation.

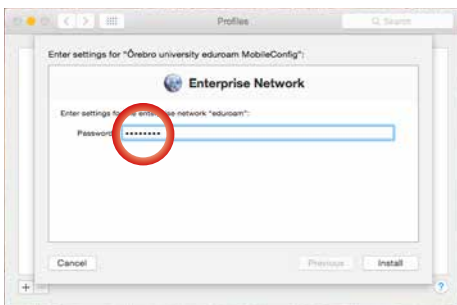

8. Click Continue to confirm installation.

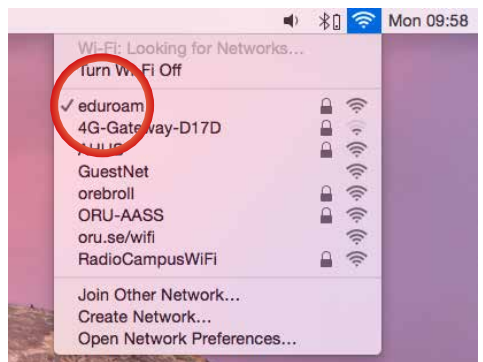

11. Type in your Mac password.

9. Type in the password which you created earlier for using wireless networks and click Install.

12. Your Mac is now connected to eduoam.

If you have any questions, visit IT Services in Långhuset.
