8. Why study at Örebro University?
9. Useful links
10. Time for questions!
1. Why study this programme?

- Unique opportunity to be prepared for doctoral studies in the field of exercise physiology and sports medicine
1. Why study this programme?

- Get new and in-depth knowledge in the field of exercise physiology
2. Programme details

120 credits - Full time studies - Start: 2 September, 2019
3. Career and job market

- Qualification for PhD studies
- Exercise physiologist
4. An alumni perspective

Before the master...
BSc in physical activity and sport sciences in Spain

My point of view about the programme...
It equips you with all the skills to further continue with doctoral studies

My thesis....
Ageing biomarkers and physical activity for healthy ageing

I would recommend you this programme if you are...
Curious
Interested in research-orientated education in exercise physiology and medicine
Willing to work at high pace both in teams and individually

After the master...
PhD Candidate
