Dear Career Services Team,

My name is Delvin, and I am the founder of Tubielini, a Swedish company. I am writing to ask whether your students would be interested in internships with us.

About Tubielini

We have redesigned the traditional syringe and feeding tube to create a colourful, reusable oral feeding tool for liquid nutrition. It is designed for children, people with disabilities and anyone who finds eating or drinking difficult. Our goal is to make feeding more fun and participatory, and to get away from the clinical look of the tubes in use today.

We are now expanding internationally and would like to welcome motivated students into our team.

Internship areas

- Business Development

- Sales (B2B and international markets)

- Digital Marketing (social media, content, SEO, campaigns)

- Marketing and Brand Communication

- Finance and Business Analysis

- Other areas such as market research and partnerships

What we offer

- Tailored internship opportunity in line with the universities goals and objectives

- Real responsibility and hands-on experience in a growing international startup

- Direct mentoring from the founder

- Exposure to several European markets

- Flexible format: Remote

- Curricular internships, internship agreements and Erasmus+ traineeships are all welcome

Beyond the day-to-day work, these internships are designed to help students grow both professionally and personally. Interns will build practical experience, strengthen their skills and deepen their knowledge in a real international business environment, working on projects that have a real impact on the company's growth.

As Tubielini continues to expand, outstanding interns may also be considered for future employment opportunities with us. At the end of the internship, each student will receive an official certificate from Tubielini confirming their internship, the areas they worked in and the skills they developed.

We would be grateful if you could share these opportunities with your students, or let us know how to post them on your career platform. We would also be happy to set up a longer-term internship partnership with your institution.

You can learn more about us at www.tubielini.com.

Thank you for your time. I look forward to hearing from you.

Kind regards,

Delvin Arsan
